ABOUT ME

Full-stack developer at Accenture with experience delivering scalable web solutions for a global retail client. Currently acting as a Feature Lead, balancing hands-on development in React and Java with technical leadership responsibilities. Skilled in translating business requirements into technical tasks, ensuring code quality through reviews, and driving agile delivery.

WORK EXPERIENCE

FULL-STACK ENGINEER & FEATURE LEAD – ACCENTURE – 10/2023 – Current – PORTUGAL

Project: Internal Shared Component & Utility Library

- **Architecture:** Architected and developed a central library using **Vite** and **TypeScript** to unify UI components and business logic across multiple retail platforms.
- **Optimisation:** Reduced development time for new features by providing pre-tested, reusable modules and standardized configurations.
- **Leadership:** Defined the contribution guidelines and documentation, ensuring seamless integration for other development teams.
- **DevOps:** Set up the publishing workflow and versioning strategy to ensure stable updates across dependent projects.

Project: AI Assistant for Store Managers

- **Technical Leadership:** Acting as **Feature Lead** for a high-visibility conversational AI project. Responsible for breaking down complex requirements into technical user stories (Jira tickets) and managing the sprint backlog.
- **Development:** Designed and implemented a scalable full-stack solution using **Next.js** and **Spring Boot**, ensuring cross-platform compatibility and high performance.
- **Operations:** Managed feature flags, authentication flows, and push notifications, directly supporting store operations like sales and expense tracking.

Project: Unified Shipping & Payment Service

- **Architecture:** Built a customisable **Next.js** iframe service to unify address and payment flows, replacing disparate legacy systems.
- **DevOps:** Managed **CI/CD pipelines** and deployment configurations to ensure secure transmission of payment data via Spring Boot APIs.

EDUCATION AND TRAINING

2018 – 2023 Portugal

MSC + BSC IN COMPUTER SCIENCE University of Coimbra

LANGUAGE SKILLS

Mother tongue(s): **PORTUGUESE**

Other language(s): **ENGLISH (FLUENT)**

SKILLS

Frontend

React | Next.js | Typescript | HTML/CSS | Javascript | Tailwind CSS | jest | Zustand | react-query | NestJS

Backend

Java | Spring Boot | Kotlin | MySQL | PostgreSQL | Firebase | SQL

DevOps & Cloud

CI/CD | Gitlab pipelines | Docker | LaunchDarkly | Google Cloud Platform | Git

Practices & Tools

Agile | Code reviews | Version Control (Git) | Unit & Integration Testing | Jira | Postman | Coda
